In case that there were instructions on behalf of the represented shareholder, the representative will cast the vote and will have the obligation of conserving these instructions during a year from the corresponding Meeting holding date.

The representative can be the proxy of more than one shareholder without limitation in regards to the number of shareholders represented. When a representative is the proxy of many shareholders, he/she can cast votes of different signs considering the instructions given by each shareholder.

The entities that are legitimised as shareholders in virtue of the shares counting registry but that act in the name of different individuals, can in all cases fraction the vote and exercise it in the divergent direction in accordance with the different vote instructions, if they received them.

The intermediary entities to which the former paragraph refers can delegate the vote to each of the indirect owners or third persons designed by them, without being able to limit the number of provided delegations.

The delegation can also include those items that, even if they are not represented in the Agenda call, can be treated in the Meeting, as the Law allows it.

In any case, the number of represented actions will be computed for the valid constitution of the Meeting.

The representation can always be cancelled. The assistance of the shareholder to the Meeting, supposes the cancellation of any delegations, whenever its date is. In this sense the representations appointed before the cast of the absentee ballots will be considered cancelled, and the ones appointed after, will be considered as not presented.

2. *The representation will have to be conferred in the terms and with the scope established in the Spanish Corporate Law, in written and with special nature for each Meeting, unless it is the partner, ascendant or descendant of the represented or general empowerment, in public document, to administrate all the assets that the represented shareholder has in the national territory.*

The representation can be appointed also by postal correspondence, submitting by writing to the Company a document in which it states who is the appointed proxy, accompanied by the attendance card, delegation or representation and absentee ballots issued by the Company or entities in charge of controlling the registration of registry books. However, the attendance card, delegation and absentee ballot might be sufficient when the delegation might need to used it through postal correspondence.

The representation can also be appointed by electronic means or other distant communication means that, by guaranteeing correctly the identity of the represented and the representative and the safety of the electronic communication, the Administration Board determines on the occasion of each Meeting call, making it public in the call notice and the Company corporate website.

The regulation contained in the article 22 of the current Regulation, when possible, for the cast of absentee ballot, will apply to the proxy appointed by electronic means

The appointed proxy by any of the electronic means or other distant communication means will have to be received by the Company twenty-four (24) hours before the day planned for the General Meeting holding upon first call. If not, the representation will not be considered.

Everything that has been established previously will also apply to the cancellation of the appointed proxy.

3. *The Chairman and the Secretary of the General Meeting will benefit of the largest faculties to admit the validity of the document or proxy accreditation mean, and will only consider invalid those that lack of the minimal requirements and as long as they cannot be rectified.*
4. *Before its appointment, the representative must inform with much detail the shareholder if there is a conflict of interest situation. If the conflict is posterior to his/her appointment and he/she has not informed the represented shareholder of its possible existence, he/she will have to inform him/her immediately. In both cases, by not having received new precise voting instructions for each of the items that the representative has to vote in the name of the shareholder, he/she will have to abstain from voting. In particular, a conflict of interest can exist, when the proxy is in one of the situations described in the article 523.2 of the Spanish Corporate Law.*
5. *In cases where the Company's Counsellors, or any other individual or identity, ask publicly for representation, the regulations contained in the Spanish Corporate Law and the development regulation will be applied. In particular, the document in which the empowerment is notified will have to contain or have the Agenda as an annex, as well as the instructions request for the voting right exercise and the indication of the direction in which the representative will vote in case that there no instructions are provided, or if they are not clear.*

The proxy can vote in different direction when there are ignored circumstances when sending the instructions and there is a risk of damaging the interests of the represented individual. If the vote is cast in a different direction than the instructions, the representative will have to inform immediately the represented, by writing in which he/she explains the reasons of the vote.

The public representation request can be also performed by electronic means in accordance with what has been planned in the current Regulation and other Company internal regulation.

It will be considered that there has been a public request when one individual represents more than three shareholders.

6. *Apart from complying with the duties stipulated in the previous section 5, if the Counsellors or another individual in his/her name or in name of any of them, have publicly requested representation, the Counsellor that obtains it will not be able to exercise his voting right corresponding to shares represented in those items of the Agenda where there is a conflict of interest, unless he/she has received precise voting instructions for each of the items. In any case, it will be understood that the Counsellor is in a conflict of interest situation regarding the following decisions:*
 - a) *His/her appointment, re-election or ratification as a Counsellor.*
 - b) *His/her destitution, separation or ceasing as a Counsellor.*
 - c) *The exercise against himself/herself of the responsibility corporate action.*
 - d) *The approval or ratification, when necessary, of Company operations with the corresponding Counsellor, companies controlled by him/her or that he/she represents or individuals that act on their own.*
7. *The Administration Board can develop the former plans, establish rules, means and procedures adequate to the technique status to tool the proxy appointment by electronic means, adjusting, in this case, to the related regulations and the By-Laws.*

In particular, the Administration Board can: (i) regulate the use of alternative guarantees to the electronic signature for the proxy appointment by electronic correspondence; (ii) reduce the formed delay established for the reception by the Company of the conferred proxies by postal or electronic correspondence; and (iii) admit and authorise the Chairman and Secretary of the General Meeting or the individuals in which any of them delegate, to admit the representations received after the deadline, as long as the available means allow it.

In any case, the Administration Board will adopt precise measures to avoid duplications and ensure that whoever has appointed a proxy by postal or electronic correspondence is correctly legitimised by it in relation with what has been stipulated in the By-Laws and this Regulation.

8. *The development rules that the Administration Board may adopt to protect what has been stipulated in the current article will be published in the Company website".*

The attendance card can integrate the identity of the represented unless it is expressly mentioned by the shareholder not to do so, as well as the supposed conflicts of interest.

In case that there were instructions on behalf of the represented shareholder, the representative will cast the vote and will have the obligation of conserving these instructions during a year from the corresponding Meeting holding date.

The representative can be the proxy of more than one shareholder without limitation in regards to the number of shareholders represented. When a representative is the proxy of many shareholders, he/she can cast votes of different signs considering the instructions given by each shareholder.

The entities that are legitimised as shareholders in virtue of the shares counting registry but that act in the name of different individuals, can in all cases fraction the vote and exercise it in the divergent direction in accordance with the different vote instructions, if they received them.

The intermediary entities to which the former paragraph refers can delegate the vote to each of the indirect owners or third persons designed by them, without being able to limit the number of provided delegations.

The delegation can also include those items that, even if they are not represented in the Agenda call, can be treated in the Meeting, as the Law allows it.

In any case, the number of represented actions will be computed for the valid constitution of the Meeting.

The representation can always be cancelled. The assistance of the shareholder to the Meeting, supposes the cancellation of any delegations, whenever its date is. In this sense the representations appointed before the cast of the absentee ballots will be considered cancelled, and the ones appointed after, will be considered as not presented.

2. The representation will have to be conferred in the terms and with the scope established in the Spanish Corporate Law, in written and with special nature for each Meeting, unless it is the partner, ascendant or descendent of the represented or general empowerment, in public document, to administrate all the assets that the represented shareholder has in the national territory.

The representation can be appointed also by postal correspondence, submitting by writing to the Company a document in which it states who is the appointed proxy, accompanied by the attendance card, delegation or representation and absentee ballots issued by the Company or entities in charge of controlling the registration of registry books. However, the attendance card, delegation and absentee ballot might be sufficient when the delegation might need to used it through postal correspondence.

The representation can also be appointed by electronic means or other distant communication means that, by guaranteeing correctly the identity of the represented and the representative and the safety of the electronic communication, the Administration Board determines on the occasion of each Meeting call, making it public in the call notice and the Company corporate website.

The regulation contained in the article 22 of the current Regulation, when possible, for the cast of absentee ballot, will apply to the proxy appointed by electronic means

The appointed proxy by any of the electronic means or other distant communication means will have to be received by the Company twenty-four (24) hours before the day planned for the General Meeting holding upon first call. If not, the representation will not be considered.

Everything that has been established previously will also apply to the cancellation of the appointed proxy.

3. The Chairman and the Secretary of the General Meeting will benefit of the largest faculties to admit the validity of the document or proxy accreditation mean, and will only consider invalid those that lack of the minimal requirements and as long as they cannot be rectified.
4. Before its appointment, the representative must inform with much detail the shareholder if there is a conflict of interest situation. If the conflict is posterior to his/her appointment and he/she has not informed the represented shareholder of its possible existence, he/she will have to inform him/her immediately. In both cases, by not having received new precise voting instructions for each of the items that the representative has to vote in the name of the shareholder, he/she will have to abstain from voting. In particular, a conflict of interest can exist, when the

proxy is in one of the situations described in the article 523.2 of the Spanish Corporate Law.

5. In cases where the Company's Counsellors, or any other individual or identity, ask publicly for representation, the regulations contained in the Spanish Corporate Law and the development regulation will be applied. In particular, the document in which the empowerment is notified will have to contain or have the Agenda as an annex, as well as the instructions request for the voting right exercise and the indication of the direction in which the representative will vote in case that there no instructions are provided, or if they are not clear.

The proxy can vote in different direction when there are ignored circumstances when sending the instructions and there is a risk of damaging the interests of the represented individual. If the vote is cast in a different direction than the instructions, the representative will have to inform immediately the represented, by writing in which he/she explains the reasons of the vote.

The public representation request can be also performed by electronic means in accordance with what has been planned in the current Regulation and other Company internal regulation.

It will be considered that there has been a public request when one individual represents more than three shareholders.

6. Apart from complying with the duties stipulated in the previous section 5, if the Counsellors or another individual in his/her name or in name of any of them, have publicly requested representation, the Counsellor that obtains it will not be able to exercise his voting right corresponding to shares represented in those items of the Agenda where there is a conflict of interest, unless he/she has received precise voting instructions for each of the items. In any case, it will be understood that the Counsellor is in a conflict of interest situation regarding the following decisions:

 - b) His/her destitution, separation or ceasing as a Counsellor.
 - c) The exercise against himself/herself of the responsibility corporate action.

In particular, the Administration Board can: *(i) regulate the use of alternative guarantees to the electronic signature for the proxy appointment by electronic*

correspondence; (ii) reduce the formed delay established for the reception by the Company of the conferred proxies by postal or electronic correspondence; and (iii) admit and authorise the Chairman and Secretary of the General Meeting or the individuals in which any of them delegate, to admit the representations received after the deadline, as long as the available means allow it.

In any case, the Administration Board will adopt precise measures to avoid duplications and ensure that whoever has appointed a proxy by postal or electronic correspondence is correctly legitimised by it in relation with what has been stipulated in the By-Laws and this Regulation.
