NOTE: A regulatory disclosure was published on 30 July 2004 on the National Securities Market Commission (Comisión Nacional del Mercado de Valores, CNMV) website regarding the acquisition of part of Esther Koplowitz Romero de Juseu's stake in B 1998, S.L. by Inversiones Ibersuizas, S.A., Inversiones San Felipe, S.L., Cartera Deva, S.A., and the French family Peugeot, through Simante, S.L.

A regulatory disclosure was filed on 13 January 2005 on the agreement between Dominum Dirección y Gestión, S.A. Sociedad Unipersonal (wholly-owned by Esther Koplowitz Romero de Juseu) and Larranza XXI, S.L. (belonging to the Bodegas Faustino group) to transfer a portion of the former's minority stake in B 1998, which directly and indirectly owns 52.483% of FCC, to the latter.

A regulatory disclosure was filed on 13 January 2005 on the agreement between Dominum Dirección y Gestión, S.A. Sociedad Unipersonal (wholly-owned by Esther Koplowitz Romero de Juseu) and Inversiones Ibersuizas, S.A., Inversiones San Felipe,

S.L., Ibersuizas Holdings, S.L., Cartera Deva, S.A., Arzubi Inversiones, S.A. and EBN Banco de Negocios, S.A. to transfer a minority stake owned by the former in B 1998, S.L., which directly and indirectly owns 52.483% of FCC, to the latter.

A regulatory disclosure was filed on 19 July 2007 on the novation modifying B1998, S.L. shareholder agreements, which does not alter Esther Koplowitz Romero de Juseu's direct and indirect stakes in B 1998, S.L. or the agreements between parties with respect to the governance of B 1998, S.L. and, indirectly, of Fomento de Construcciones y Contratas, S.A., or any provision regarding control of the two companies."

A regulatory disclosure was issued on 26 December 2007 on the reorganisation of the ownership structure of B 1998, S.L., whereby Esther Koplowitz Romero de Juseu, through wholly-owned company DOMINUM DIRECCIÓN Y GESTIÓN, S.A., signed an agreement with IBERSUIZAS HOLDINGS, S.L. to purchase from the latter 10.55% of B 1998, S.L., which owns 52.483% of FCC, effective 30 January 2008.

The transaction totalled 381.5 million euro, valuing FCC shares at €55.94 each. This move, which was initiated by Esther Koplowitz and increased her stake in FCC, entailed the divestment of Grupo Ibersuizas in B 1998, S.L. and, thus, in FCC Group. Ibersuizas Holdings, S.L. ceased being party to the shareholders' agreement regulating the relationships between shareholders of B 1998, S.L., and on 30 January 2008, resigned from the board of directors of that company. Ibersuizas Alfa, S.L. also left FCC's board of directors.

A regulatory disclosure was issued on 4 February 2008 regarding Esther Koplowitz's acquisition of Ibersuizas Holding's stake in B 1998, S.L., FCC's main shareholder (53.829%). The agreement was reached on 24 December 2007.

Following this restructuring, the ownership structure of B 1998, S.L. is as follows:

Esther Koplowitz (direct and indirect) 83.92%
Eurocis, S.A. 5.01%
Simante, S.L. 5.73%
Larranza XXI, S.L. 5.33%
Total 100.00%

The above-mentioned regulatory disclosures reflect the main agreements reached between Esther Koplowitz Romero de Juseu and the Investors since the respective acquisitions regarding control of FCC and B 1998, S.L.:

- Esther Koplowitz Romero de Juseu will retain control of B 1998, S.L. and, therefore, of Azate, S.A. and FCC.
- The Board of Directors of B 1998 S.L. will comprise twelve directors. As a group, the Investors are entitled to appoint up to four directors, although under no circumstances may those directors appoint more than one third of the members of the Board of B 1998, S.L.
- At all events, Esther Koplowitz Romero de Juseu may appoint the majority of the members of the boards of directors of FCC and its subsidiaries. As a group, the Investors may appoint up to three members but never more than one-third of the total Board of Directors of FCC.
- Esther Koplowitz Romero de Juseu may appoint the Chairman of the Board of Directors of FCC, the Managing Director of FCC and at least two-thirds of the members of the Executive Committee.
- FCC's pay-out will be at least 50%.

Esther Koplowitz Romero de Juseu and the Investors have entered into a series of agreements to protect the latter's minority interest in B 1998, S.L.:

- IN RELATION TO B 1998, S.L:

As regards B 1998, S.L., although the general rule is that decisions (in the Shareholders' Meeting or the Board of Directors) be adopted by simple majority of capital, there are a number of special cases where consensus is required:

- Modifications to the Articles of Incorporation that entail moving the registered offices abroad, changing the corporate purpose or increasing or reducing capital, except where such operations are required by law or, in the case of capital reductions, when they occur through the acquisition of own shares by B 1998 S.L., (owned directly and indirectly by Esther Koplowitz Romero de Juseu and Dominum Dirección y Gestión, S.A.) for amortisation, or when the capital reduction is performed through amortisation of shares of B 1998, S.L. (held directly and indirectly by Esther Koplowitz Romero de Juseu and by Dominum Dirección y Gestión, S.A.) against reserves, which may only be performed by Esther Koplowitz Romero de Juseu, according to a clause in the Articles of Incorporation and otherwise.

- Any type of transformation, merger or spin-off or the total transfer of assets and liabilities;

- Dissolution or liquidation of B 1998 S.L.;

- Overriding of pre-emptive subscription rights in capital increases and the exclusion of shareholders;

- Modification of the regime of management of B 1998, S.L.;

- Establishment or modification of the dividend policy agreed by the Investors in connection with rights attached to their shares, as set out in the Articles of Incorporation or otherwise;

- Acts of disposal or encumbrance, by any means, of any significant assets of B 1998, S.L., specifically shares of FCC or shares of any other companies in which B 1998 S.L. holds or may hold a stake in the future;

- An increase in structural expenses which, on an annual basis, exceed those reflected in the company's balance sheet as of 31 December 2003, increased in line with the general annual CPI plus two percentage points; the foregoing calculation will exclude the remuneration paid to B 1998, S.L. as a result of that company being a member of the Board of Directors of FCC (hereafter, the "FCC Board Remuneration"), and remuneration of members of the Board of Directors of B 1998, S.L., as long as it does not exceed the FCC Board Remuneration;

- Granting or maintaining powers that allow for the disposal of FCC shares, by any means;

- Encumbering B 1998, S.L. with debt and obtaining or providing guarantees which, overall, exceed 500,000 euro;

- Creating or acquiring direct subsidiaries (other than FCC subsidiaries) or acquiring shares in entities other than those in which B 1998 S.L. already holds a stake

- IN RELATION TO FCC:

As regards FCC, although the general rule is that decisions (in the Shareholders' Meeting or the Board of Directors) be adopted by simple majority of capital, there are a number of special cases where consensus is required:

- Modifications to the Articles of Incorporation that entail moving the registered offices abroad and increasing or reducing capital, except where such operations are required by law.

- Changing the corporate purpose when doing so includes the incorporation of activities not related to construction, services, cement and real estate.

- Any type of transformation, merger or spin-off.

- Any merger of FCC, Cementos Portland Valderrivas, S.A. and FCC Servicios, S.A. whereby B 1998, S.L. would no longer indirectly hold more than 50% of the voting rights in the post-merger company.

- Overriding of pre-emptive subscription rights in capital increases.
- Modification of the regime of management.
- Acts of disposal or encumbrance, by any means, of any relevant FCC assets unrelated to the company's object, and, at all events, the above-mentioned acts within the scope of FCC's object when the total or combined value is 700,000,000 euro or more (adjusted in line with the annual increase in the CPI), or entail a significant modification to the current structure of the FCC Group or represent more than 10% of the FCC Group's consolidated assets.
- Any transactions that may lead to or represent a variation of more than 20% of FCC's equity or over 10% of the FCC Group's consolidated assets.
- Granting of powers that permit, by any means, the above-mentioned disposals, encumbrance and acquisitions; the foregoing does not in any way limit Esther Koplowitz Romero de Juseu's right to appoint and remove the Managing Director of FCC.
- Encumbering FCC with debt and obtaining or providing guarantees (excluding, at all events, guarantees included in the normal course of ordinary business and non-recourse project finance) which, overall, exceed 2.5 times the EBITDA shown in FCC's most recent consolidated balance sheet.

In the event that Esther Koplowitz Romero de Juseu and the Investors are unable to reach a consensus to adopt resolutions in the above-mentioned special cases, the parties will take the necessary measures to maintain the pre-existing situation.

The full content of the shareholders' agreements are available on the CNMV website as Regulatory Disclosures dated 30 July 2004, 13 January 2005, 19 July 2007, 26 December 2007 and 4 February 2008.

Under the provisions of Article 3 et seq. of European Commission Regulation 2273/2003, of 22 December, the meeting approved a share buyback programme whose only purpose was (i) to fulfil the obligations deriving from the issuance of exchangeable bonds (the "**Bonds**") for a maximum amount of four hundred fifty million euro (€450,000,000) approved by the Company under the decision by the Meeting of Shareholders on 18 June 2008 by virtue of an Executive Committee decision dated 6 October 2009, by delegation of the Board of Directors on 30 September 2009, and (ii) to reduce the Company's capital by amortising the shares acquired by virtue of the programme or those already held as treasury stock (including, for this purpose, the 5,090,000 shares loaned to the Joint Lead Managers), which shall henceforth be deemed to be subject to the terms and conditions of the programme approved by the Meeting of Shareholders.

As a result of the foregoing, decision six adopted by the Meeting of Shareholders on 10 June 2009 is annulled to the extent that it has not been executed and the Company is authorised so that, directly or via any of its subsidiaries, within a period of at most five years from the date of this Meeting of Shareholders, it may acquire, at any time and on as

many occasions as it sees fit, shares of the Company by any means allowed by law, all in conformity with Article 75 and matching Articles of the Consolidated text of the Public Limited Companies Act.

- The shares acquired must have been fully paid.
- The acquisition price may not be less than the par value nor more than 20 per cent higher than the market price.

The shares acquired under the buyback programme shall be used by the Company to fulfil its exchange or conversion obligations arising from the issuance of the Bonds and/or to reduce the Company's capital, as the case may be.

In view of the directors' duty of confidentiality, every effort will be made to ensure that the importance and confidential nature of the information is not used as a pretext for breaching this rule, except under exceptional circumstances at the Chairman's discretion.
- 4. Board meetings may be held via telephone multiconference, videoconference or any other analogous system so that one or more directors can attend the meeting via that system. For that purpose, in addition to stating the location where the meeting is physically held, which is where the Board Secretary must be located, the announcement must state that directors can attend via telephone multiconference, videoconference or an equivalent system, indicating and making available the technical means for this purpose, which in all cases must enable direct, simultaneous communication among attendees. As provided in Article 38.6 of the Rules of the Board of Directors ("*The plenary Board will devote its first meeting each year to an assessment of its own performance during the preceding year, evaluating the quality of its work, and the efficacy of its rules and correcting any aspects which have been shown to be dysfunctional. Also, based on a report drawn up by the Nomination and Remuneration Committee, that meeting will assess the performance of the Chairman of the Board and the Company's chief executive, and the performance of the Committees on the basis of the reports issued by them.*"), on 27 January 2010 the Board of Directors evaluated its own performance and that of its Committees in 2009.

This evaluation covered not only the performance of the Board and all of its Committees (Executive Committee, Audit and Control Committee, Nomination and Remuneration Committee, and Strategy Committee), but also that of the Chairman and Chief Executive.

The outcome was that their performance was highly satisfactory. D RISK CONTROL SYSTEMS

D.1. Describe the risk policy of the company and/or its group, detailing and assessing the risks covered by the system, and justify why those systems conform to each type of risk.

Within the organisational structure of the FCC Group, the planning systems and transactions management processes are designed to control the different business risks faced by the Group. In this regard, risk management forms part of the Group's management process and, as such, involves all members of the organisation. In addition, the Group has established preventive, supervisory and control policies and corrective action policies in order to help the organisation meet its objectives.

The main risks covered by the system are described below:

1 Market risks

2 Operating risks

- 2.1 Contracting risks
- 2.2 Production risks
- 2.3 Environmental risks

- 3 Organisational risks
 - 3.1 Labour risks
 - 3.2 Information system risk
- 4 Financial management risks
 - 4.1 Capital risk
 - 4.2 Interest rate risk
 - 4.3 Exchange rate risk
 - 4.4 Solvency risk
 - 4.5 Liquidity risk
 - 4.6 Concentration risk
 - 4.7 Risk-hedging inimical derivatives
 - 4.8 Property and industrial risks

1. Management of market risks

The FCC Group faces diverse regulatory and structural risks inherent to the products it sells and the environment in which it operates.

The Board of Directors, aided by the Strategy Committee, is responsible for defining the FCC Group's strategy, assigning available resources, setting the general policies to be applied and informing the different business areas of such policies.

The FCC Group's strategic planning process entails the identification of objectives to be met in each activity area, based on the improvements to be introduced, the market opportunities present and the level of risk considered acceptable. On the basis of this process, the Group designs operating plans specifying the targets to be achieved each year.

Progress toward the targets established during the planning process is reviewed periodically, analysing irregularities revealed at all levels of responsibility and taking the appropriate corrective measures.

The Group's general organisational and operational rules provide the framework applicable to all members of the organisation, the powers vested at each hierarchical level and the basic principles guiding the operating processes. These principles are the basis of the specific rules governing these processes.

To mitigate the market risks faced by each business line, the Group has also adopted a strategy of diversification in complementary business lines such as the provision of a range of services to government agencies, concessions, energy, cement, etc.

2. Management of operating risks

2.1 Management of contracting risks

The risks and opportunities arising during the contracting process constitute one of the main challenges faced by the FCC Group. To meet these challenges, the organisation has established formal policies and procedures that focus on:

- a) Keeping technological capacity up to date at all times:

The FCC Group is aware that, as it operates in a highly competitive market, it must offer clients added value through technical and economic capabilities. In this regard, the FCC Group actively researches and innovates in the latest technology and places a great deal of emphasis on ongoing training for employees.

b) The technical quality, economic viability and competitiveness of its bids:

The process of preparing, presenting and monitoring bids must be authorised at various levels within the organisation. The main bid preparation tasks are entrusted to the highly qualified technical staff of the specific departments.

2.2 Management of production risks

The formal policies and procedures designed by the FCC Group to control the risks associated with its construction and service provision activities focus on:

a) Quality systems:

Formal quality control systems are firmly in place in the different activity areas of the FCC Group. These systems have been ISO 9000 certified and regularly pass the periodic evaluations performed by external professionals.

Based on general principles and basic criteria, the quality control systems assign responsibilities, define and document processes, and establish guidelines for detecting and correcting irregularities.

The quality assurance committees are the maximum executive bodies in this regard and are responsible for establishing guidelines, monitoring compliance and reviewing the Group's systems. One of the responsibilities of the quality assurance departments is to conduct quality assurance audits of the different operating units.

b) Ongoing personnel training:

The FCC Group has implemented training plans in the different activity areas, structured into both periodic basic training and refresher courses, and courses responding to specific needs as they arise. The quality assurance committees are responsible for establishing training plans, approving the implementation of training plans and ensuring that they are properly applied.

c) Ongoing support of operating units by the highly qualified staff of the technical departments.

d) The design and documentation of purchasing and subcontracting processes that guarantee the quality of the supplies and the effectiveness and efficiency of the contracting system.

e) Economic and budget control systems for each operating unit that serve as the basis for economic planning, gathering, measuring, recording and calculating costs and production, analysing and monitoring deviations, and quantifying and controlling the resources invested.

2.3 Management of environmental risks.

The FCC Group's business areas apply UNE-EN ISO 14001-certified environmental management systems based on:

- a) Compliance with the environmental regulations applicable to the activities of each area.
- b) Establishment and attainment of continuous improvement targets beyond those required by prevailing legislation or contracts.
- c) Minimising environmental impacts through proper operational control.
- d) An ongoing analysis of risks and possible improvements.

The basic tool for mitigating environmental risk is the environmental plan prepared by each operating unit, which sets out the following:

- a) The environmental aspects of each activity and any applicable legislation.
- b) Environmental impact evaluation criteria.
- c) The measures needed to minimise environmental impact.
- d) A system for tracking and measuring the specified targets.

3. Management of organisational risks.

3.1 Management of labour risks.

As one of the FCC Group's priorities is to guarantee the health and safety of its personnel and to strictly comply with all labour legislation, health and safety risk prevention systems are of the utmost importance to the Group. These systems are formally established and structured on the basis of:

- a) The assignment of duties and responsibilities.
- b) Application of comprehensive procedures to evaluate risks within the production processes in order to assess risks and establish health and safety plans.
- c) Ongoing training supported by specialists in the field.
- d) Regular reviews of the measures planned by safety specialists in the different operating units.
- e) A system of safety audits involving internal and external professionals.

3.2 Management of information system risks

Information system risks arise from the FCC Group's dependence on information systems in its decision-making and business processes.

In order to guarantee confidentiality, integrity and availability of information, the Group has implemented a proactive strategy to minimise the following risks:

3.2.1 Information processing risk

Information processing risk arises on handling information in general.

The FCC Group has established a Corporate Information Security Policy laying down common information management criteria to mitigate those risks which could affect the confidentiality, availability and integrity of information. These criteria are based on ISO standards (ISO 27000 series).

Controls have been implemented to guarantee that users can access the resources for which they are authorised on a need-to-know basis and on the basis of their assigned roles.

During 2009, the FCC Group implemented a Security Operation Centre (SOC) that operates around the clock to address the growing threat of attacks from the internet and information leaks. The SOC has the following capabilities:

- a) Vulnerability detection
- b) User account audits
- c) Forensic analysis
- d) Security event correlation

- e) Incident management
- f) Prevention information leaks
- g) Mail filtering

3.2.2 Personal data risks

The Spanish Data Protection Act regulates and restricts how personal data on customers, employees and suppliers can be used. The FCC Group has implemented a control programme to determine actions to be carried out and any procedural and technological changes that are required. The Group has established the necessary technology to manage communication between all parties involved.

4. Financial risk management policies

Financial risk refers to changes in the value of financial facilities and instruments arranged by the Group due to political, market and other factors, and the effect of such changes on the financial statements.

The FCC Group's risk management philosophy is consistent with its business strategy, as it strives for maximum solvency and efficiency at all times. To this end, the Group has set out stringent financial risk management and control criteria for identifying, measuring, analysing and controlling the risks faced in the course of FCC's operations. This risk policy is correctly integrated into the Group's organisational structure.

In keeping with the risk control policy, hedging transactions arranged by the FCC Group are not speculative but, rather, aim to cover the transaction risks.

In view of the FCC Group's businesses and the transactions through which these activities are carried out, the Group is currently exposed to the following financial risks:

4.1. Capital risk

The Group manages its capital to ensure that Group companies are able to continue as profitable businesses, while maximising shareholder returns.

The Group's overall strategy continues to focus on geographical diversification, developing and expanding activities in Europe and in North and Central America.

The Group's capital structure includes debt (loans, credit facilities and bonds), cash and cash equivalents, and equity (capital, reserves and retained earnings).

The operating areas and the Finance Department analyse the cost of capital and the associated risks in each investment project for subsequent approval or rejection by the corresponding committee or by the Board of Directors, based on any necessary reports from other operating areas of the Group.

In addition to the standard objectives of investment analysis (returns, return period, risk assumed, and strategic and market valuations), these analyses focus on keeping the net debt/EBITDA ratio at reasonable levels and within the terms of agreements with lenders.

The Company's Finance Department, which is in charge of managing financial risks, regularly reviews the leverage ratios and compliance with loan covenants, as well as subsidiaries' capital structures. In December 2009, Cementos Portland increased capital.

4.2. Interest rate risk:

In order to adopt the optimal position for the Group's interests, it implements an active risk management policy; it constantly monitors the market and adopts positions depending mainly on the asset being financed.

Given that the Group's activities are closely linked to inflation, its financing policy entails ensuring that both its current financial assets, which to a large extent provide a natural hedge for its current financial liabilities, and the Group's debt are partially tied to floating interest rates.

Nevertheless, the FCC Group has arranged interest rate hedges; at the end of 2009, it had hedged 46.4% of the Group's total net debt using a range of instruments at different terms (including hedges for structured project finance).

In compliance with the policy of classifying original instruments as hedges, the FCC Group has arranged interest rate hedges, mainly swaps (IRSs), in which the Group companies pay a fixed interest rate and receive a floating rate.

4.3. Exchange rate risk:

As a result of the FCC Group's positioning in international markets, it is exposed to exchange rate risks in its net foreign currency positions with respect to both the euro and other foreign currencies when the investment and financing of an activity cannot be arranged in the same currency.

The FCC Group's general policy is to mitigate, as far as possible, the adverse effect on its financial statements of exposure to foreign currencies, both in terms of gains and losses on foreign currency transactions and the values of foreign currency-denominated assets and liabilities recognised on the balance sheet. The FCC Group therefore manages the effect that foreign exchange risk can have on both the balance sheet and the income statement.

The Group actively manages its foreign exchange risk by arranging financial transactions in the same currency as that in which the related asset is denominated. In that regard, the Group strives always to finance its activities in the local currency as this creates a natural hedge between cash flows and financing. However, this is occasionally not possible where the currency of the country of origin of the investment is weak and long-term financing cannot be obtained in that currency. In these cases, financing is obtained either in the currency of the consolidated Group or in the most closely-related foreign currency. Foreign exchange risk is expressed as the portion of the Group's equity denominated in currencies other than the euro, the most noteworthy currency being the pound sterling.

4.4. Solvency risk:

At 31 December 2009, the FCC Group's financial debt amounted to 7.655 million euro, as shown in the following table:

	2009	2008
Bank loans	8,689	8,096
Debt securities outstanding	563	144
Other interest-bearing debt	289	285
Current financial assets	(231)	(223)
Cash and cash equivalents	(1,654)	(1,409)
Net interest-bearing debt	7,655	6,893
Net debt with limited recourse	(2,882)	(1,573)
Net debt with recourse	4,773	5,320

The most relevant ratio for measuring solvency and repayment capacity is the net debt / EBITDA ratio. The Group's ratios are reasonable and comply with the covenants agreed with lenders.

4.5. Liquidity risk:

The FCC Group operates in various markets in order to obtain the financing it needs, thereby mitigating liquidity risk.

Despite the adverse situation reigning in the financial markets throughout 2009, the FCC Group has remained extremely well positioned and has anticipated any potential adversity by paying close attention to trends in those factors that may help to resolve liquidity shortfalls in the future and to the various sources of financing and their characteristics.

Details of the credit facilities granted at consolidated level at 31 December 2009, taking into account only short- and long-term bank debt and excluding non-recourse debt, finance lease payables and accrued interest payable, are as follows:

	Amount granted	Undrawn balance	Balance drawn down
Consolidated	8,085,986	2,135,262	5,950,724

4.6. Concentration risk:

Concentration risk arises from the concentration of financial transactions with common characteristics, such as:

- Sources of financing: The FCC Group obtains financing from over 160 Spanish and international credit institutions.
- Markets/geographical area (Spanish, foreign): The FCC Group operates in a wide variety of markets in Spain and other countries; 81% of the Group's debt is in euro and 19% in various currencies in several international markets.
- Products: The FCC Group arranges a broad spectrum of financial products, including loans, credit facilities, debt instruments, syndicated transactions and discounting facilities.
- Currency: The FCC Group finances its operations in a wide variety of currencies. Although there is significant concentration of financing in euro, US dollars and pounds sterling, investments tend to be financed in the local currency, and in the country of origin, wherever possible.

4.7. Risk-hedging financial derivatives

A financial derivative is a financial instrument or other contract whose value fluctuates in response to changes in certain variables, such as the interest rate, the price of financial instruments, foreign exchange rate, credit rating or credit index, or any other financial or non-financial variable.

Apart from giving rise to gains or losses, financial derivatives may, under certain conditions, fully or partially offset foreign exchange or interest rate risks or risks associated with balances and transactions.

The financial derivatives arranged by the FCC Group are accounted for as provided in the accounting rules for hedges in order to match recognition of the impact of the hedge on the income statement with that of the hedged position, except where reasons of materiality and/or management efficiency make it advisable not to account for the transaction as a hedge.

For the purposes of accounting classification, derivatives designated as hedges and the hedged positions constitute hedging relationships of the following types:

- Fair value hedge (FV): a hedge of the exposure to changes in fair value of a recognised asset or liability or an unrecognised firm commitment, that is attributable to a particular risk and could affect profit or loss.
- Cash flow hedge (CF): a hedge of the exposure to variability in cash flows that (i) is attributable to a particular risk associated with a recognised asset or liability (such as all or some future interest payments on variable rate debt) or a highly probable forecast transaction and (ii) could affect profit or loss.
- Hedges of a net investment in a foreign operation: a hedge of the interest rate that may affect profit and loss for the amount of the net investment, as defined in IAS 21, of a foreign operation whose functional currency is not the euro.

In compliance with the accounting regulations (particularly IAS 39), accounting hedges are accounted for as follows:

- At the inception of the hedge there is formal designation and documentation of the hedging relationship and the entity's risk management strategy for undertaking the hedge, as well as identification of the hedged item, the hedging instrument and the nature of the risk being hedged.
- The hedge is expected to be highly effective based on prospective tests performed both at inception of the hedge and at each accounting close.
- The hedge is determined actually to have been highly effective in the accounting period by means of quantitative retrospective tests.

The main financial risk hedged by the FCC Group using derivatives is the variation in floating interest rates to which group companies' finance is referenced. At 31 December 2009, the FCC Group had arranged interest rate hedging transactions totalling 5,109.731 million euro, mainly in the form of interest rate swaps in which Group companies pay fixed interest rates and receive floating rates.

Fair value changes in cash flow hedges are recognised in reserves, net of the tax effect, and they are recognised in profit or loss as the hedged item is recognised in profit or loss.

Financial derivatives are measured by experts in the field who are independent of the group and its lenders, using generally-accepted methods and techniques.

Interest rate swaps are measured by discounting all the flows projected in the contract in accordance with its characteristics, such as the notional amount and the schedule of collections and payments. The measurement uses a zero-coupon yield curve obtained from quoted deposits and swaps at any given time using a bootstrapping process; that yield curve is used to obtain the discount rates used in the measurements, on the assumption of "absence of arbitrage opportunities" (AOA). Where the derivatives include a cap, a floor or a combination of the two, occasionally linked to special conditions, the interest rates used are the same as in the swaps, although the generally-accepted Black method was used to introduce an element of randomness in the exercise of the options.

The method for cash flow hedges linked to inflation is very similar to that for interest rate swaps. Projected inflation is estimated from quoted inflation levels implicit in quoted inflation-indexed Europe swaps ex-tobacco, adapted to Spanish inflation using a convergence adjustment.

4.8. Property and industrial risks

The FCC Group applies a proactive risk management policy to mitigate risks to its property, employees and business activity, including both destruction of property and activities and generation of liabilities.

The Group's ongoing management efforts in this regard are as follows:

- a) Identification and evaluation of the risks and their possible economic consequences.
- b) Elimination of risks, to the extent possible, through the pertinent safety and prevention measures.
- c) Transfer of those risks which cannot be eliminated or minimised to the insurance sector, through insurance policies.
- d) Financing of risks that have not been eliminated or transferred, through proactive self-insurance policies.

The Group's risk exposure undergoes thorough analysis, consisting of the quantification of the possible losses should the risk event occur, determination of the measures needed to eliminate or reduce such losses and risks, optimising the risks in economic terms and selecting the most appropriate coverage or hedging mechanisms in order to maintain or guarantee the Company's property and profits, as well as the corporate purpose as a mechanism for generating shareholder value.

D.2. Have operating, technological, financial, legal, reputational, tax or other risks arisen during the year with an effect on the company and/or group?

YES NO

If so, indicate the circumstances giving rise to them and whether the established control systems worked.

Risk that materialised in the year	Circumstances that gave rise to it	How the control systems operated

D.3. Are any committees or governing bodies entrusted with establishing and supervising these control mechanisms?

YES NO

If so, detail their functions.

Name of Committee or Body	Description of functions
Audit and Control Committee	Entrusted with establishing and supervising the Company's control mechanisms (see B.2.3.). Risk management is part of the Group's overall management framework and therefore all members of the organisation apply preventive, supervisory and control procedures in their tasks. Consequently, responsibility for designing processes is established at various levels of the organisation and certain committees and bodies work to ensure that the established controls function properly.

D.4. Identify and describe the compliance processes for each legislative framework to which the company and/or group is subject:

The FCC Group has procedures in place to guarantee compliance with the regulations governing each of its economic activities. Different Group departments specialise in the regulations applicable to FCC and the Group (business, labour, tax, environmental, etc.). These departments are in charge of:

- a) Staying fully abreast of and up to date on the different regulations
- b) Overseeing regulatory compliance
- c) Drafting the standards needed to unify Group criteria
- d) Advising operating units

The FCC Group's Corporate Responsibility Department is responsible for overseeing compliance with corporate governance standards.

The Information Security and Risk Management Department is responsible for ensuring compliance with the Spanish Data Protection Act. Data protection coordinators have been appointed in each operating area and independent reviews are carried out on the control measures adopted.

In any event, the shareholders will be informed of the agenda item to which each proposed resolution refers.
3. Notwithstanding the alternative systems which may be employed by the Chairman, the procedure for voting on the proposed resolutions referred to above will be as follows:
 - a) The system for voting on the proposed resolutions relating to the items on the agenda will be by a negative deduction system. This means that, for each proposal, the votes corresponding to all of the shares present and represented will be considered as votes in favour, deducting those corresponding to the shares whose owners or representatives state that they are voting against or abstaining, to which will be added the votes corresponding to proxies received by the Board of Directors, indicating whether voters are against the motion or abstentions. Votes against and abstentions will be counted separately.
 - b) The system for voting on the proposed resolutions relating to items not on the agenda, when such proposals may legitimately be voted upon, will be a positive deduction system. This means that for each proposal, the votes corresponding to all of the shares present and represented will be considered votes against, deducting those

corresponding to the shares whose owners or representatives state that they are voting for the proposal or abstaining.

- c) When technically possible and provided that compliance with all legal requirements can be guaranteed, the Board of Directors may establish the use of electronic vote counting systems.
 - d) If, in accordance with the terms of Article 5 of these Rules, the meeting announcement makes provisions for voting electronically using one or more distance voting methods, and without detriment to the specific instructions for each particular case in order to be valid and accepted by the Company, the document containing the vote must contain the following information at the very least:
 - (i) Meeting date and agenda.
 - (ii) The shareholder's identity.
 - (iii) The number of shares owned.
 - (iv) The shareholder's vote on each of the items on the agenda.
 - e) Issues which are substantially independent will be voted on separately so that the shareholders can exercise separately their voting preferences; this rule will be applied when adopting resolutions on: (i) the appointment or ratification of directors, which must be voted on individually; and (ii) amendments to the Articles of Incorporation where each article or group of articles is substantially independent.
 - f) Provided that it is legally possible and that the requirements provided for in this respect are met, financial intermediaries who are legitimised as shareholders, but who act on behalf of different customers, will be allowed to split the vote as per the instructions of their customers.
4. The statements containing votes submitted to the notary or the meeting officers as envisaged in paragraph 3 above may be made individually for each of the proposals or jointly for several or all of them, indicating to the notary or the officers the identity of the shareholder or representative, the number of shares in question, and whether the shareholder/representative votes in favour or against, or abstains.

E.5. Indicate if the position of chairperson of the shareholders' meeting coincides with that of the chairperson of the board of directors. Detail any measures adopted to guarantee the independence and smooth transaction of the shareholders' meeting:

YES NO

Detail the measures

Article 10.2 of the Rules of the General Meeting of Shareholders establishes that, "2. The General Meeting of Shareholders is presided over by the Chairman and, in his absence, by the Vice-Chairmen of the Board of Directors, in order; if there is no pre-set order, it will go in order of seniority on the Board. If there is no Vice-Chairman in attendance, the General Meeting will be chaired by the oldest director."

Measures to guarantee the independent and good working of the General Meeting:

The Rules of the General Meeting of Shareholders, which are available on the company's web site, contain a detailed set of measures to guarantee the independence and good working of the General Meeting.

They include, notably, Article 7 "Right to Information prior to the General Meeting of Shareholders

1. Up to seven calendar days before the first scheduled date for the Meeting, shareholders may request any information or explanations they require and raise any questions they consider pertinent regarding the items on the agenda or the information accessible to the public reported by the Company to the National Securities Market Commission since the last General Meeting.

2. Information requests may be made by e-mail to the address provided for this purpose on the Company's website for each General Meeting of Shareholders or in writing to the Stock Market and Investor Relations Department at the Company's registered offices, delivered by hand, post or courier. The provisions of this article are understood without prejudice to the shareholders' right to obtain a printed copy of the documents and to request that the documents be sent to them, free of charge, when so stipulated by law.

3. Once the identity and status of the requesting shareholder is verified, the information requests regulated in this article will be answered up to the date of the General Meeting of Shareholders but prior to the start of the meeting.

4. The Chairperson may refuse to supply the requested information when, in his opinion, the publication of the requested information might be detrimental to the Company's interests, except when the request is backed by shareholders representing at least one-fourth of the share capital.

5. The Board of Directors may empower any of its members, its Secretary and Vice-Secretary to answer shareholders' requests for information through the Stock Market and Investor Relations Department.

Article 23 of the Articles of Incorporation establishes shareholders' right to information:

Shareholders may request, either in writing or using other electronic or distance communication media, up to seven calendar days before the date of the General Meeting on first call, any information or explanations they require or pose any questions they may have on the agenda items or about the information available to the public provided by the Company to the National Securities Market Commission since the last General Meeting was held. The information so requested will be provided by the directors in writing no later than the date of the General Meeting.

Any information or explanations requested verbally from the Chairman by the shareholders in relation to the items on the agenda during the General Meeting itself before the Meeting turns to the items contained in the agenda, or requested in writing up to the seventh day before the scheduled meeting date, will be provided verbally during the General Meeting by any one of the directors in attendance, at the Chairman's request. If the requested information or explanations refer to items falling under the jurisdiction of the Audit Committee, they shall be provided by any one of the members or advisors to the Committee in attendance at the meeting. If in the Chairman's opinion it is not possible to provide the shareholder with the requested information or explanations during the Meeting, they will be provided in writing to the requesting shareholder within seven calendar days of the Meeting date.

The Directors are obliged to provide the information referred to in the two preceding paragraphs unless, in the Chairman's opinion, the publication of the requested information could be harmful to the Company's interests.

This exception shall not apply when the request is supported by shareholders representing at least one-fourth of the share capital.

The Company has a website which contains the legally-required information and through which the Company can respond to the shareholders' requests for information, according to the legislation in force at any given time.

E.6. Indicate any amendments to the shareholders' meeting rules in the year.

The General Meeting of Shareholders on 10 June 2009 approved an amendment to Article 11 of the Rules of the General Meeting of Shareholders of FOMENTO DE CONSTRUCCIONES Y CONTRATAS, S.A. (item 5 on the agenda).

The amendment, in coordination with the amendment to Article 17 of the Articles of Incorporation, approved under item 4 of the agenda of that same General Meeting, intended to adapt the content of Article 11 of the Rules of the General Meeting to the new wording of Article 103 of the General Corporations Act as amended by Act 3/2009, of 3 April, on Structural Modifications to Mercantile Companies, which added, to the cases of special quorum for General Meetings regulated in the previous rules the case of overriding pre-emptive rights to acquire new shares, the assignment of all assets and liabilities, and the transfer of the company's domicile to another country.

E.7. Indicate the attendance of the shareholders' meetings held in the year of this report:

YES NO

Number of shares required to attend the Shareholders' Meeting	1
--	----------

E.10. Indicate and explain the company's policy on delegating votes in the shareholders' meeting.

Notwithstanding the provisions of the Articles of Incorporation with respect to proxy voting, the Board of Directors does not require unnecessary formalities in the proxy voting procedure which might hinder the rights of shareholders wishing to exercise their right to attend the General Meeting. Nevertheless, pertinent procedures are in place to verify the validity of proxy authorisations.

E.11. Indicate if the company is aware of the institutional investors' policy of participation in company decisions:

YES NO

Describe the policy:

E.12. Indicate the web site and the way in which to access corporate governance content on the company's web site.

The Fomento de Construcciones y Contratas, S.A. website home page, www.fcc.es, features links to specific sections entitled "Information for Shareholders and Investors" and "Corporate Responsibility," which include the information required by Law 26/2003 of 18 July, Ministry of Economy Order 3722/2003 of 26 December, National Securities Market Commission Circular 1/2004 of 17 March, Ministry of Economy and Finance Order 3050/2004 of 15 December, and Royal Decree 1333/2005 of 11 November.

These pages are just two clicks away from the home page. The contents are structured and prioritised under rapid access titles. All pages are printable.

The FCC website has been designed and programmed following the guidelines of the Web Accessibility Initiative (WAI), which sets the international standards for creating web content that can be accessed worldwide. Technosite accessibility consultants performed a technical analysis of the FCC Group's website accessibility and determined that the site meets all of the priority 2 and priority 1 checkpoints established in the W3C's Web Accessibility Guidelines 1.0 ("WAI Guidelines").

The site features a link to the regulatory disclosures submitted by Fomento de Construcciones y Contratas, S.A. to the National Securities Market Commission.

F. DEGREE OF COMPLIANCE WITH CORPORATE GOVERNANCE RECOMMENDATIONS

Indicate the company's degree of conformance to the recommendations of the Unified Code of Corporate Governance.

In the event of not complying with some recommendations, detail the recommendations, rules, practices or criteria applied by the company.

1. The Articles of Incorporation of listed companies should not place an upper limit on the votes that can be cast by a single shareholder, or impose other obstacles to the takeover of the company by means of share purchases on the market.

See sections: A.9, B.1.22, B.1.23 and E.1, E.2.

Compliant Explanation

2. When a dominant and a subsidiary company are stock market listed, the two should provide detailed disclosure on:

- a) **The type of activity they engage in, and any business dealings between them, as well as between the subsidiary and other group companies;**
- b) **The mechanisms in place to resolve possible conflicts of interest.**

See sections: C.4 and C.7

Compliant Partially compliant Explanation Not applicable

Article 7.2.i) of the Rules of the Board of Directors establishes that the Board of Directors is responsible for "Defining the structure of the Group and coordinating, within the legal limits, the Group's general strategy in the interests of the Company and its subsidiaries with the support of the Strategy Committee and the Managing Director, and disclosing in the Annual Corporate Governance Report the respective areas of activity and any business relations between the Company and its listed subsidiaries that are part of the group, and between those companies and the other Group companies, and the mechanisms established to resolve any conflicts of interest that may arise".

The Company intends to approve a document with regard to listed subsidiary Cementos Portland Valderrivas S.A. that clearly establishes that company's areas of activities, its business relationships and the mechanisms applied to resolve any conflicts of interest which may arise.

3. Even when not expressly required under company law, any decisions involving a fundamental corporate change should be submitted to the General Shareholders' Meeting for approval or ratification. In particular:

- a) **The transformation of listed companies into holding companies through the process of subsidiarisation, i.e. reallocating to subsidiaries core activities that were previously carried out by the originating firm, even though the latter retains full control of the former;**
- b) **Any acquisition or disposal of key operating assets that would effectively alter the company's corporate purpose;**

c) Operations that are equivalent to the company's liquidation.

Compliant

Partially compliant

Explanation

Article 8.6 of the Rules of the Board of Directors establishes that the Board must seek the authorisation of the shareholders at the General Meeting prior to an acquisition or disposal of key operating assets that would effectively alter the corporate purpose of the Company or prior to any operations that are tantamount to the Company's liquidation.

To avoid impairing the Board of Directors' ability to operate, this does not include subsidiarisation operations, since these operations often require quick decisions and are governed by ample legal mechanisms to protect the interests of the shareholders and the Company. Nevertheless, the Board duly reports such operations at the General Meeting.

4. Detailed proposals of the resolutions to be adopted at the General Shareholders' Meeting, including the information stated in Recommendation 28, should be made available at the same time as the publication of the Meeting notice.

Compliant

Explanation

5. Separate votes should be taken at the General Shareholders' Meeting on materially separate items, so shareholders can express their preferences in each case. This rule shall apply in particular to:

a) The appointment or ratification of directors, with separate voting on each candidate;

b) Amendments to the Articles of Incorporation, with votes taken on all articles or groups of articles that are materially different.

See section: E.8

Compliant

Partially compliant

Explanation

6. Companies should allow split votes, so financial intermediaries acting as nominees on behalf of different clients can issue their votes according to instructions.

See section: E.4

Compliant

Explanation

7. The Board of Directors should perform its duties with unity of purpose and independent judgement, according all shareholders the same treatment. It should be guided at all times by the company's best interest and, as such, strive to maximise its value over time.

It should likewise ensure that the company abides by the laws and rules in its dealings with stakeholders; fulfils its obligations and contracts in good faith; respects the customs and good practices of the sectors and territories where it does business; and upholds any additional social responsibility principles it has subscribed to voluntarily.

Compliant

Partially compliant

Explanation

8. The Board should see the core components of its mission as approving the company's strategy and authorising the organisational resources to carry it forward, and ensuring that management meets the objectives set while pursuing the company's interests and corporate purpose. As such, the board in full should reserve the right to approve:

- a) The company's general policies and strategies, and, in particular:
 - i) The strategic or business plan, management targets and annual budgets;
 - ii) Investment and financing policy;

 - iii) Design of the structure of the corporate group;
 - iv) Corporate governance policy;
 - v) Corporate social responsibility policy;
 - vi) Remuneration and evaluation of senior officers;
 - vii) Risk control and management, and the periodic monitoring of internal information and control systems.

 - viii) Dividend policy, as well as the policies and limits applying to treasury stock.

See sections: B. 1.10, B.1.13, B.1.14 and D.3

b) The following decisions:

- i) On the proposal of the company's chief executive, the appointment and removal of senior officers, and their compensation clauses.

See section: B.1.14.

- ii) Directors' remuneration and, in the case of executive directors, the additional consideration for their management duties and other contract conditions.

See section: B. 1.14.

- iii) The financial information that all listed companies must periodically disclose.
- iv) Investments or operations considered strategic by virtue of their amount or special characteristics, unless their approval corresponds to the General Shareholders' Meeting;
- v) The creation or acquisition of shares in special purpose vehicles or entities resident in jurisdictions considered tax havens, and any other transactions or operations of a comparable nature whose complexity might impair the transparency of the group.

c) Transactions which the company conducts with directors, significant shareholders, shareholders with board representation or other persons related thereto ("related-party transactions").

However, board authorisation need not be required for related-party transactions that simultaneously meet the following three conditions:

1. They are governed by standard form agreements applied on an across-the-board basis to a large number of clients;
2. They are arranged at market rates, generally set by the person supplying the goods or services;
3. Their amount is no more than 1% of the company's annual revenues.

It is advisable that related-party transactions should only be approved on the basis of a favourable report from the Audit Committee or some other committee handling the same function; and that the directors involved should neither exercise nor delegate their votes, and should withdraw from the meeting room while the board debates and votes.

Ideally the above powers should not be delegated with the exception of those mentioned in b) and c), which may be delegated to the Executive Committee in urgent cases and later ratified by the full board.

See sections: C. 1 and C.6

Compliant Partially compliant Explanation

- 9. In the interests of maximum effectiveness and participation, the Board of Directors should ideally comprise no fewer than five and no more than fifteen members.**

See section: B.1.1

Compliant Explanation

Article 27 of the Articles of Incorporation states that the Board of Directors shall comprise a minimum of five and a maximum of 22 members. At 31 December 2009, there were 20 directors.

Given the characteristics of the Company, the size of the Board is considered to be appropriate for proper management, direction and administration of the Company's businesses. Furthermore, the size of the Board makes it possible for different types of directors to sit on the Board without jeopardising the Board's effectiveness.

- 10. External directors, proprietary and independent, should occupy an ample majority of board places, while the number of executive directors should be the minimum practical bearing in mind the complexity of the corporate group and the ownership interests they control.**

See sections: A.2, A.3, B.1.3., B.1.14

Compliant Partially compliant Explanation

- 11. In the event that an external director can be deemed neither proprietary nor independent, the company should disclose this circumstance and the links that person maintains with the company or its senior officers, or its shareholders.**

See section: B.1.3

Compliant Explanation Not applicable

- 12. That among external directors, the relation between proprietary members and independents should match the proportion between the capital represented on the board by proprietary directors and the remainder of the company's capital.**

This proportional criterion can be relaxed so the weight of proprietary directors is greater than would strictly correspond to the total percentage of capital they represent:

- 1. In large cap companies where few or no equity stakes attain the legal threshold for significant shareholdings, despite the considerable sums actually invested.**

2. In companies with a plurality of shareholders represented on the board that are not otherwise related.

See sections: B.1.3, A.2 and A.3

Compliant Explanation

13. The number of independent directors should represent at least one third of all board members.

See section: B.1.3

Compliant Explanation

Article 6.3 of the Rules of the Board of Directors establishes that the Board of Directors must have an appropriate number of independent directors to ensure a reasonable balance between proprietary and independent directors, and that external directors must represent an ample majority on the Board.

There are five independent directors on the Board. While they do not represent one-third of the total number of directors, as suggested in the recommendation, it is believed that in view of the current capital structure of the Company and pursuant to the OECD Principles of Corporate Governance and the Recommendation of the European Commission of 15 January 2006, there is a "sufficient number" of independent directors to guarantee that the interests of other shareholders are adequately protected.

14. The nature of each director should be explained to the General Meeting of Shareholders, which will make or ratify his or her appointment. Such determination should subsequently be confirmed or reviewed in each year's Annual Corporate Governance Report, after verification by the Nomination Committee. That Report should also disclose the reasons for the appointment of proprietary directors at the urging of shareholders controlling less than 5% of capital; and explain any rejection of a formal request for a board place from shareholders whose equity stake is equal to or greater than that of others applying successfully for a proprietary directorship.

See sections: B.1.3 and B.1.4

Compliant Partially compliant Explanation

15. When there are few or no women directors, the board should state the reasons for this situation and the measures taken to correct it; in particular, the Nomination Committee should take steps to ensure that:

- a) **The process of filling board vacancies has no implicit bias against women candidates;**
- b) **The company makes a conscious effort to include women with the target profile among the candidates for board places.**

See sections: B.1.2, B.1.27 and B.2.3.

Compliant Partially compliant Explanation Not applicable

16. The Chairman, as the person responsible for the proper operation of the Board of Directors, should ensure that directors are supplied with sufficient information in advance of board meetings, and work to procure a good level of debate and the active involvement of all members, safeguarding their rights to freely express and adopt positions; he or she should organise and coordinate regular evaluations of the board and, where appropriate, the company's chief executive, along with the chairmen of the relevant board committees.

See section: B.1.42

Compliant Partially compliant Explanation

17. When a company's Chairman is also its chief executive, an independent director should be empowered to request the calling of board meetings or the inclusion of new business on the agenda; to coordinate and give voice to the concerns of external directors; and to lead the board's evaluation of the Chairman.

See section: B.1.21

Compliant Partially compliant Explanation Not applicable

18. The Secretary should take care to ensure that the board's actions:

- a) Adhere to the spirit and letter of laws and their implementing regulations, including those issued by regulatory agencies;
- b) Comply with the company Articles of Incorporation and the Rules of the General Shareholders' Meeting, the Board of Directors and others;
- c) Are informed by those good governance recommendations of the Unified Code that the company has subscribed to.

In order to safeguard the independence, impartiality and professionalism of the Secretary, his or her appointment and removal should be proposed by the Nomination Committee and approved by a full board meeting; the relevant appointment and removal procedures being spelled out in the Rules of the Board of Directors.

See section: B.1.34

Compliant Partially compliant Explanation

19. The board should meet with the necessary frequency to properly perform its functions, in accordance with a calendar and agendas set at the beginning of the year, to which each director may propose the addition of other items.

See section: B.1.29

Compliant Partially compliant Explanation

20. Director absences should be kept to the bare minimum and quantified in the Annual Corporate Governance Report. When directors have no choice but to delegate their vote, they should do so with instructions.

See sections: B.1.28 and B.1.30

Compliant Partially compliant Explanation

21. When directors or the Secretary express concerns about some proposal or, in the case of directors, about the company's performance, and such concerns are not resolved at the meeting, the person expressing them can request that they be recorded in the minute book.

Compliant Partially compliant Explanation Not applicable

22. The board in full should evaluate the following points on a yearly basis:

- a) The quality and efficiency of the board's operation;
- b) Starting from a report submitted by the Nomination Committee, how well the Chairman and chief executive have carried out their duties;
- c) The performance of its committees on the basis of the reports furnished by the same.

See section: B.1.19

Compliant Partially compliant Explanation

23. All directors should be able to exercise their right to receive any additional information they require on matters within the board's competence. Unless the Articles of Incorporation or Rules of the Board of Directors indicate otherwise, such requests should be addressed to the Chairman or Secretary.

See section: B. 1.42

Compliant Explanation

24. All directors should be entitled to call on the company for the advice and guidance they need to carry out their duties. The company should provide suitable channels for the exercise of this right, extending in special circumstances to external assistance at the company's expense.

See section: B.1.41

Compliant Explanation

25. Companies should organise induction programmes for new directors to acquaint them rapidly with the workings of the company and its corporate governance rules. Directors should also be offered refresher programmes when circumstances so advise.

Compliant Partially compliant Explanation

26. Companies should require their directors to devote sufficient time and effort to perform their duties effectively, and, as such:

- a) **Directors should apprise the Nomination Committee of any other professional obligations, in case they might detract from the necessary dedication;**
- b) **Companies should lay down rules about the number of directorships their board members can hold.**

See sections: B.1.8, B.1.9 and B.1.17

Compliant Partially compliant Explanation

27. The proposal for the appointment or re-appointment of directors which the board submits to the General Shareholders' Meeting, as well as provisional appointments by the method of co-optation, should be approved by the board:

- a) **On the proposal of the Nomination Committee, in the case of independent directors.**
- b) **Subject to a report from the Nomination Committee in all other cases.**

See section: B.1.3

Compliant Partially compliant Explanation

28. Companies should post the following director particulars on their websites, and keep them permanently updated:

- a) **Professional experience and background;**
- b) **Directorships held in other companies, listed or otherwise;**
- c) **An indication of the director's classification as executive, proprietary or independent; in the case of proprietary directors, stating the shareholder they represent or have links with.**
- d) **The date of their first and subsequent appointments as a company director, and;**
- e) **Shares held in the company and any options on the same.**

Compliant Partially compliant Explanation

29. Independent directors should not stay on as such for a continuous period of more than 12 years.

See section: B.1.2

Compliant Explanation

30. Proprietary directors should resign when the shareholders they represent dispose of their ownership interest in its entirety. If such shareholders reduce their stakes, thereby losing some of their entitlement to proprietary directors, the latter's number should be reduced accordingly.

See sections: A.2, A.3 and B.1.2

Compliant Partially compliant Explanation

31. The Board of Directors should not propose the removal of independent directors before the expiry of their tenure as mandated by the Articles of Incorporation, except where just cause is found by the board, based on a proposal from the Nomination Committee. In particular, just cause will be presumed when a director is in breach of his or her fiduciary duties or comes under one of the disqualifying grounds enumerated in section III.5 of this Code.

The removal of independents may also be proposed when a takeover bid, merger or similar corporate operation produces changes in the company's capital structure, in order to meet the proportionality criterion set out in Recommendation 12.

See sections: B.1.2, B.1.5 and B.1.26

Compliant Explanation

32. Companies should establish rules obliging directors to inform the board of any circumstance that might harm the organisation's name or reputation, tendering their resignation as the case may be, with particular mention of any criminal charges brought against them and the progress of any subsequent trial.

The moment a director is indicted or tried for any of the crimes stated in Article 124 of the Public Limited Companies Law, the board should examine the matter and, in view of the particular circumstances and potential harm to the company's name and reputation, decide whether or not he or she should be called on to resign. The board should also disclose all such determinations in the Annual Corporate Governance Report.

See sections: B.1.43, B.1.44

33. All directors should express clear opposition when they feel a proposal submitted for the board's approval might damage the corporate interest. In particular, independents and other directors unaffected by the conflict of interest should challenge any decision that could go against the interests of shareholders lacking board representation.

When the board makes material or reiterated decisions about which a director has expressed serious reservations, then he or she must draw the pertinent conclusions. Directors resigning for such causes should set out their reasons in the letter referred to in the next Recommendation.

The terms of this Recommendation should also apply to the Secretary of the board; director or otherwise.

34. Directors who give up their place before their tenure expires, through resignation or otherwise, should state their reasons in a letter to be sent to all members of the board. Irrespective of whether such resignation is filed as a significant event, the motive for the same must be explained in the Annual Corporate Governance Report.

See section: B.1.5

35. The company's remuneration policy, as approved by its Board of Directors, should specify at least the following points:

a) the amount of the fixed components, itemised where necessary, of board and board committee attendance fees, with an estimate of the fixed annual payment to which they give rise;

b) Variable components, in particular:

- i) The types of directors they apply to, with an explanation of the relative weight of variable to fixed remuneration items.**
- ii) Performance evaluation criteria used to calculate entitlement to the award of shares or share options or any performance-related remuneration;**
- iii) The main parameters and grounds for any system of annual bonuses or other non-cash benefits; and**

36. Remuneration comprising the delivery of shares in the company or other companies in the group, share options or other share-based instruments, payments linked to the company's performance or membership of pension schemes should be confined to executive directors.

The delivery of shares is excluded from this limitation when directors are obliged to retain them until the end of their tenure.

See sections: A.3, B.1.3

Compliant Explanation

37. External directors' remuneration should sufficiently compensate them for the dedication, abilities and responsibilities that the post entails, but should not be so high as to compromise their independence.

Compliant Explanation

38. In the case of remuneration linked to company earnings, deductions should be computed for any qualifications stated in the external auditor's report.

Compliant Explanation Not applicable

39. In the case of variable awards, remuneration policies should include technical safeguards to ensure they reflect the professional performance of the beneficiaries and not simply the general progress of the markets or the company's sector, atypical or exceptional transactions or circumstances of this kind.

40. The board should submit a report on the directors' remuneration policy to the advisory vote of the General Shareholders' Meeting, as a separate point on the agenda. This report can be supplied to shareholders separately or in the manner each company sees fit.

The report will focus on the remuneration policy the board has approved for the current year with reference, as the case may be, to the policy planned for future years. It will address all the points referred to in Recommendation 35, except those potentially entailing the disclosure of commercially sensitive information. It will also identify and explain the most significant changes in remuneration policy with respect to the previous year, with a global summary of how the policy was applied over the period in question.

The role of the Remuneration Committee in designing the policy should be reported to the Meeting, along with the identity of any external advisors engaged.

See section: B.1.16

At the time the Ordinary General Meeting of Shareholders scheduled for 10 June 2009 was announced, a report on the Board of Directors remuneration policy was made available to

the shareholders. That report was approved by the Board of Directors on 5 May 2009, and it was not submitted to the General Meeting for approval.

The report discussed the following:

- a. the procedures applied in preparing the report
- b. the objective and structure of the remuneration policy
- c. remuneration of directors for their membership of the Board
- d. the remuneration of executive directors for performance of executive and managerial duties
 - structure of the remuneration
 - basic conditions of executive director contracts.

41. The notes to the annual accounts should list individual directors' remuneration in the year, including:

- i) **Participation and attendance fees and other fixed director payments;**
- ii) **Additional compensation for acting as chairman or member of a board committee;**
- iii) **Any payments made under profit-sharing or bonus schemes, and the reason for their accrual;**

- vii) **The remuneration executive directors receive in respect of their senior management posts;**
- viii) **Any kind of compensation other than those listed above, of whatever nature and provenance within the group, especially when it may be accounted a related-party transaction or when its omission would detract from a true and fair view of the total remuneration received by the director.**

b) An individual breakdown of deliveries to directors of shares, share options or other share-based instruments, itemised by:

- i) **Number of shares or options awarded in the year, and the terms set for their execution;**
- ii) **Number of options exercised in the year, specifying the number of shares involved and the exercise price;**
- iii) **Number of options outstanding at the annual close, specifying their price, date and other exercise conditions;**
- iv) **Any change in the year in the exercise terms of previously awarded options.**

c) Information on the relation in the year between the remuneration obtained by executive directors and the company's profits, or some other measure of enterprise results.

Compliant Partially compliant Explanation

In section B.1.11 and subsequent sections of this Annual Corporate Governance Report, the Company provides the required information on directors' remuneration (the different types of remuneration received by the directors for membership of the Board of FCC or of Group companies, remuneration by type of director, and golden parachute clauses in favour of executive directors) and the process for establishing directors' remuneration (Board approval of a detailed report on the remuneration policies submitted by the Nomination and Remuneration Committee).

Therefore, it is believed that the Company has offered sufficiently detailed information on the various aspects of the remuneration paid to directors for the performance of their duties, both collectively and by category. However, for reasons of security and privacy, it is not considered necessary to itemise the specific amount of individual remuneration received by each director.

42. When the company has an Executive Committee, the breakdown of its members by director category should be similar to that of the board itself. The Secretary of the board should also act as secretary to the Executive Committee.

See sections: B.2.1 and B.2.6

Compliant Partially compliant Explanation Not applicable

The composition of the Executive Committee is as follows: 83% external directors and 17% executive directors; the composition of the Board of Directors is: 90% external directors and 10% executive directors.

The Secretary of the Board is the Secretary of the Executive Committee.

43. The board should be kept fully informed of the business transacted and decisions made by the Executive Committee. To this end, all board members should receive a copy of the Committee's minutes.

Compliant Explanation Not applicable

44. In addition to the Audit Committee required under the Securities Market Law, the Board of Directors should form a committee, or two separate committees, of Nomination and Remuneration.

The rules governing the make-up and operation of the Audit Committee and the committee or committees of Nomination and Remuneration should be set forth in the Rules of the Board, and include the following:

- a) The Board of Directors will designate the members of the Committees, having regard to the directors' knowledge, skills and experience and each Committee's area of competence; discuss their proposals and reports; and be apprised, at the first board meeting following each committee meeting, of the business transacted, the committees being responsible before the Board for their performance.
- b) These committees should be formed exclusively of external directors and have a minimum of three members. Executive directors or senior officers may also attend meetings, for information purposes, at the Committees' invitation.
- c) Committee chairs must be independent directors.
- d) These committees may engage external advisors when they feel this is necessary for the

discharge of their duties.

e) Committee meetings should be minuted and a copy sent to all board members.

See sections: B.2.1 and B.2.3

Compliant Partially compliant Explanation

The Board took into account the knowledge, aptitudes and experience of the directors and the mission of each committee when appointing committee members. Committees are also expressly given the power to obtain external advice and the Board has debated the proposals and reports presented by the Committees, which reported on their activities and performance at the first full Board meeting after each of their meetings.

When appointing the Committee members and chairs, the Board gave priority to the skills, experience and qualifications that will enable directors to contribute to better performance by the Committees of the duties entrusted to them (rather than to the directors' categories).

On 29 July 2009, it was notified to the CNMV that the Audit and Control Committee had unanimously agreed to appoint independent director Gonzalo Anes y Álvarez de Castrillón as chair for a term of 4 years. He took the place of Fernando Falcó y Fernández de Córdoba, who had reached the end of the maximum four-year term for Committee chairs established in Additional Provision Eighteen of Law 28/1988, on the Securities Market, and in the Company's Articles of Incorporation.

45. The job of supervising compliance with internal codes of conduct and corporate governance rules should be entrusted to the Audit Committee, the Nomination Committee or, as the case may be, separate Compliance or Corporate Governance committees.

Compliant Explanation

46. All members of the Audit Committee, particularly its Chairman, should be appointed with regard to their knowledge and background in accounting, auditing and risk management matters.

Compliant Explanation

47. Listed companies should have an internal audit function, under the supervision of the Audit Committee, to ensure the proper operation of internal reporting and control systems.

Compliant Explanation

48. The head of internal audit should present an annual work programme to the Audit Committee; report to it directly on any incidents arising during its implementation; and submit an activities report at the end of each year.

49. Control and risk management policy should specify at least:

- b) The determination of the risk level the company sees as acceptable;
- c) Measures in place to mitigate the impact of risk events should they occur;
- d) The internal reporting and control systems to be used to control and manage the above risks, including contingent liabilities and off-balance-sheet risks.

- b) Review internal control and risk management systems on a regular basis, so main risks are properly identified, managed and disclosed.
- c) Monitor the independence and efficacy of the internal audit function; propose the selection, appointment, re-appointment and removal of the head of internal audit; propose the department's budget; receive regular report-backs on its activities; and verify that senior management are acting on the findings and recommendations of its reports.

- b) Receive regular information from the external auditor regarding the audit plan and the results thereof, and verify that senior executives act on the recommendations of the external auditor.
- c) Monitor the independence of the external auditor, to which end:
 - i) The company should notify any change of auditor to the CNMV as a regulatory disclosure, accompanied by a statement of any disagreements arising with the outgoing auditor and the reasons for the same.
 - ii) The Committee should ensure that the company and the auditor adhere to current regulations on the provision of non-audit services, the limits on the concentration of the auditor's business and, in general, other requirements designed to safeguard auditors' independence;

iii) Investigate the issues giving rise to the resignation of any external auditor.

d) In the case of groups, urge the group auditor to take on the audit of all component companies.

See sections: B.1.35, B.2.2, B.2.3 and D.3

51. The Audit Committee should be empowered to meet with any company employee or manager, even ordering their appearance without the presence of another senior officer.

Compliant Explanation

52. The Audit Committee should prepare information on the following points from Recommendation 8 for input to board decision-making:

a) The financial information that all listed companies must disclose periodically. The Committee should ensure that interim statements are drawn up under the same accounting principles as the annual statements and, to this end, may ask the external auditor to conduct a limited review.

b) The creation or acquisition of shares in special purpose vehicles or entities resident in jurisdictions considered tax havens, and any other transactions or operations of a comparable nature whose complexity might impair the transparency of the group.

c) Related-party transactions, except where their scrutiny has been entrusted to some other supervision and control committee.

Should such reservations or qualifications exist, both the Chairman of the Audit Committee and the auditors should give a clear account to shareholders of their scope and content.

See section: B.1.38

Compliant Partially compliant Explanation

54. The majority of Nomination Committee members – or Nomination and Remuneration Committee members as the case may be – should be independent directors.

See section: B.2.1

Compliant Explanation Not applicable

As indicated under Recommendation 44, when appointing committee members and chairs, the Board focuses more on the skills, experience and qualifications that will enable the different committees to best perform their duties than on the category of director.

The Nomination and Remuneration Committee comprises a majority of external directors, in compliance with Article 42.1 of the Rules of the Board of Directors.

55. The Nomination Committee should have the following functions in addition to those stated in earlier recommendations:

- a) Evaluate the balance of skills, knowledge and experience on the board, define the roles and capabilities required of the candidates to fill each vacancy, and decide the time and dedication necessary for them to properly perform their duties.
- b) Examine or organise, in appropriate form, the succession of the chairman and chief executive, making recommendations to the board so the handover proceeds in a planned and orderly manner.
- c) Report on the senior officer appointments and removals which the chief executive proposes to the board.
- d) Report to the board on the gender diversity issues discussed in Recommendation 14 of this Code.

See section: B.2.3
